ABOUT ME

"Music in film and visual media is an integral part of storytelling, extending beyond the imagery to evoke emotion, shape identity, and give greater depth and meaning to the narrative."

Elton Zarb is an award-winning Maltese composer, music producer and music director whose career spans film, television, broadcast media, major live events and contemporary music production. Working across orchestral and cinematic scoring, electronic, pop, dance, R&B and hip-hop, he has composed and produced music for artists, broadcasters, film productions and major international events.

His music has secured sync placements in international film productions, including Universal Studios' Bring It On: In It to Win It.

Elton's international achievements include two Junior Eurovision Song Contest victories for Malta, in 2013 and 2015, as well as Malta's 2015 Eurovision Song Contest entry Warrior, performed by Amber. He also served as Music Director and Producer for the Junior Eurovision Song Contest when hosted in Malta in 2014 and 2016.

In 2018, Elton was commissioned to compose and produce music for the Opening Ceremony of Valletta 2018 — European Capital of Culture. His large-scale work also includes the Opening and Closing Ceremonies of the Games of the Small States of Europe, a commemorative score marking the 50th anniversary of the Republic of Malta, and the score for the immersive Malta Envision 2050 installation.

From 2022 to 2026, Elton served as Music Director, Producer and Coordinator of the Golden Bee Awards during the Mediterranean Film Festival.

His work in sonic branding and broadcast identity includes music for Malta's national television channels TVM, TVM News+ and TVM Sports+, as well as ONE TV. He has also produced radio imaging and jingles for ONE Radio and Campus 103.7.

As a film composer, Elton's credits include Saul: The Journey to Damascus and A Dangerous Arrangement, both internationally distributed by eOne, Mario Philip Azzopardi's Hallini Ha Nirbah, and The Theft of the Caravaggio, directed by Joshua Cassar Gaspar.

He also composed the score for a documentary commemorating 100 years of cinema in Malta, featuring Joaquim de Almeida, and various Golden Bee Award short-film productions featuring internationally recognised talent including David Walliams and Russell Crowe.

Across film, television, broadcast media and live performance, Elton's work is guided by a fundamental belief:

"Music should never simply accompany the picture — it should become an integral part of the story."
